Another Subsidized Competitor.

It is a poor day now which does not bring word of some new European subsidized steamship enterprise many of them unfortunately directed at our own unprotected commerce. One of the latest projects of this nature is the German line to Zanzibar, which is to receive a subsidy of \$2,250,000 annually This does not come into direct competition with American steamers, but another line which is soon to be put in operation in the Pacific is a new menace to our remaining maritime resources in that ocean. It is to be operated under the Portuguese flag, with one of its termini in the Portuguese East Indian port of Maeso and the other at Salina Cruz in Mexico. The steamships of this line are to be subsidized, it is understood, by both the Portuguese and the Mexican authorities, and are to call for passengers and cargo at Hongkong, and touch at the Sand-wich Islands and San Francisco, thus cutting into the business of our Paeific Mail Company. It is humili-ating thought that even little Portagal is taking advantage of our failure to protect our commerce and is about to adopt the method which From Hamakua per steamer Iwalani, about to adopt the method which Dec. 15-Mrs Andrew Motor and Miss A England, France and Germany have employed so effectually in building up their shipping at the expense of the United States.—Boston Journal.

-In Buffalo recently John Grabensteller and wife, Germans, celebrated the twenty-fifth anniversary of their marriage. One feature of the event was a walk to the church where they were married, followed by twelve of their children and one grandchild.

-An old man living in Weldsport, N. Y., wanted to be buried in a barrel when he died, and although he had had the barrel in his house for nineteen long years his wife managed the funeral to suit herself and he went into a fifteen dollar coffin instead of the barrel
